ABOUT US

Pineut is the ultimate DIY brand offering surprising gifts for every occasion throughout the year, allowing you to truly show someone your appreciation. This way, you can easily give someone a moment of enjoyment.

How it all started

Pineut is Femke and Marlies' hobby that got a tad out of hand. Two friends who love flavours, herbs and spices. What once started with a little experimenting in the attic, has now grown into *THE do-it-yourself brand in the Netherlands!* In the previous years not only our team, but also our range has grown considerably. And we are still working day in day out on the newest combinations and the tastiest do-it-yourself products.

Our mission

We believe that having a good and satisfying job is the basis for a more independent, more enjoyable and better life. Unfortunately, too many people are still left behind. People can't participate, stay behind. As a result, differences between rich and poor, developed and underdeveloped are increasing. We want to make a difference with our products.

By working with people who, with a little guidance, have a lot to offer society. Pineut's products are largely made within our sheltered workplace, by people who have *poor employment prospects*. They transform our natural ingredients into delicious neuten, packaged in a stylish bottle or flacon. The Pineut production team of Stroomopwaarts explains how they do this.

SOCIAL IMPACT

A dream come true! Here we offer work all year round for 60 people who need an extra helping hand. We do this together with Stroomopwaarts. We provide the work, they provide (for) the team.

Marlies says about this: "Personally I think this is the best thing about Pineut; the combination, or win-win, of social entrepreneurship and business. By selling our

flavoursome products we can be of direct significance to people who need just that little bit more help than others. And in this way we can contribute to self-reliance, self-confidence and equal opportunities for everyone. And let it be known... in our team we only have top performers!"

OUR INGREDIENTS

We spend time and care in selecting the right suppliers. For example, we deliberately choose to purchase herbs and spices that stimulate local *entrepreneurship*, and we prefer a short, transparent chain with fair wages and fair prices for the farmer.

Saved from wastage

At Pineut we know no outsiders. Where possible, we use ingredients that would otherwise fall by the wayside. We save them from wastage. In 2021 the counter stood at 1024KG of rescued vegetables, fruit and nuts! That makes it even more delicious, wouldn't you say?

Sustainable Development Goals

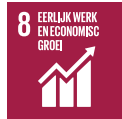

We use the seventeen UN Sustainable Development Goals as a guideline in our choices.

The focus is on:

- Goal 8: Decent work and economic growth
- Goal 10: Reduced inequalities
- Goal 12: Responsible consumption and production

Tastes moreish!

Finally, with our do-it-yourself products we hope to stimulate the *love for beautiful ingredients and surprising combinations* and to *inspire* you to make even more delicious treats yourself. At Pineut we know one thing for sure: a little love and attention always tastes moreish.

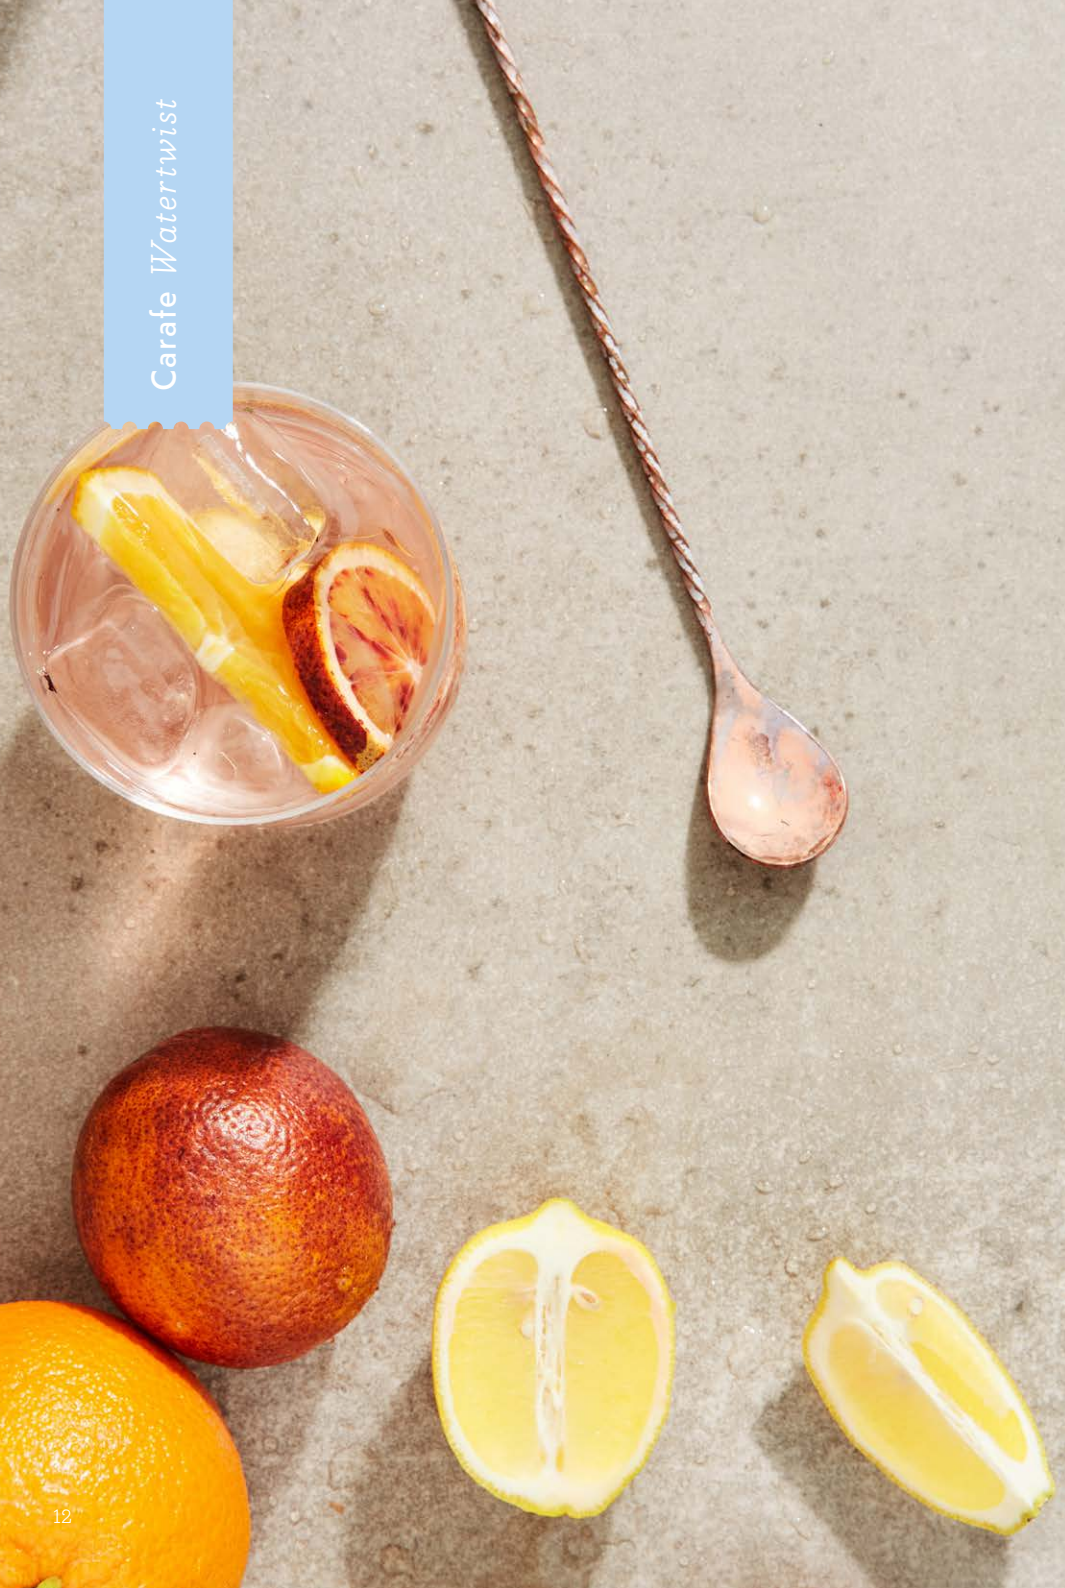

WATERTWIST

At Pineut we love water. Especially because you can do so much with it. That gave us the idea of Table Water. This way you can have something fresh, fruity and festive on the table in no time. *Alcohol-free and without added sugars.* Thirst quenching done right!

Watertwist comes in different flavours and in two versions: in a gift-worthy carafe or in a handy multi-portion pouch.

HOW DO PINEUT'S COCKTAILS WORK?

DIY drinks for every occasion. All you need to do is add alcohol. In just a few days, you'll be enjoying your first homemade cocktail. Get the party started!

LIQUEUR

Our firstborn. The basis of all our current do-it-yourself bites and drinks: Pineut liqueur. Still one of our favourites. And from the liqueur-loving Netherlands. Ten years after the introduction of our first flavour, Pineut is still popular and *available in many flavours.*

The making of liqueur dates back to the 17th century. Back then there was already a lot of experimentation with herbs and spices in combination with alcohol. This old liqueur tradition is the inspiration for Pineut's new creations.

HOW DO PINEUT'S WINTER DRINKS WORK?

The Winter Drinks all have their own simple instructions, but they have one thing in common; they are extremely nice to receive and perhaps even more fun to give.

VINAIGRETTE

The most delicious Vinaigrette is here. Naturally by Pineut. And when we say *naturally*, we mean it. Because our strictly selected *oregano* and *sage* comes directly from Sicily. And all it has done there is lie in the sun for a bit. To dry.

No additives, no pesticides; just pure nature! Taste that and... you'll see. Because let's face it, our new do-it-yourself range is of course a treat for the eyes. And for your kitchen.

How it works

HOW DO PINEUT VINAIGRETES WORK?

A vinaigrette is a mix of oil and vinegar in a ratio of 3 to 1. With Pineut you flavour the vinaigrette with pure herbs of sustainable origin. Add olive oil, vinegar and a drop of honey and let it steep for at least a week. Shake well and sprinkle over a (pasta) salad or roasted vegetables.

BAKING

At Pineut, we are big fans of parties. Birthdays, successes, failures—actually, we take every opportunity to celebrate. And of course, no party is complete without delicious treats. Whatever the occasion, Pineut’s baking mixes turn baking and making into *a piece of cake*.

Pineut cake comes in several varieties. From a world famous lemon poppyseed cake to a festive flower power cake. For every occasion a delicious treat.
